Technology Center 2100

Dear Sir:

In response to the Advisory Action dated May 20, 2003, kindly amend the above-identified application as follows.

In the Specification

Please amend the paragraph staring at page 7, line 23 as follows:

D¹
A method for communication between a host computer and at least one mobile computer terminal which provides an efficient way of running a computer network where ~~the~~ at least one mobile computer terminal operates at a remote site, has selectable operating characteristics, and is connected to the host computer through a wireless communications network, and wherein the host computer executes an application program in which data is enter from ~~the~~ at least one mobile computer terminal and processed by the application program, the method comprising the steps of: configuring the operating characteristics of the mobile
